

ANNUAL REPORT  
OF  
THE CONGRESSIONAL PRINTER,  
SHOWING

*The condition of the Public Printing, Binding, &c.*

DECEMBER 6, 1869.—Ordered to lie on the table and be printed.

OFFICE OF THE CONGRESSIONAL PRINTER,  
*Washington, December 6, 1869.*

SIR: I have the honor to transmit the seventeenth annual report of this office, in order that it may be laid before the Senate.

Very respectfully, your obedient servant,

A. M. CLAPP,  
*Congressional Printer.*

Hon. SCHUYLER COLFAX,  
*President of the Senate.*

OFFICE OF THE CONGRESSIONAL PRINTER,  
*Washington, November 30, 1869.*

*To the Senate and House of Representatives:*

In compliance with the provisions of law, I have the honor to submit the annual report of this office, showing "the exact condition of the public printing, binding, and engraving, the amount and cost of such printing, binding, and engraving, the amount of paper purchased for the same, and such further information as may be within his [my] knowledge in regard to all matters connected therewith." Also, a statement showing "the number of hands employed, and the length of time each has been employed." The tabular statements accompanying this report are made up for the year ending on the 30th of September, 1869, and are as follows:

- No. 1. Showing the documents printed by authority of law, or by order of either house of Congress, the cost of printing and binding them, and the manner in which they were distributed.
- No. 2. Showing the cost of the printing and binding ordered by the executive and judicial departments of the government.
- No. 3. Showing the disbursements on account of the public printing.
- No. 4. Showing the disbursements on account of paper for the public printing.
- No. 5. Showing the disbursements on account of the public binding.
- No. 6. Showing the disbursements on account of lithographing and engraving for the Senate and House of Representatives, and for copies in *fac-simile* of maps, plats, diagrams, &c., for the use of the Supreme Court of the United States.

- No. 7. Showing the estimated cost of work unfinished on the 30th of September, 1869.  
 No. 8. Comparative aggregate statement showing the earnings and disbursements for the year ending September 30, 1869.  
 No. 9. Showing the number of hands employed, the length of time each was employed, and the amount earned by each, for the year ending September 30, 1869.

## COST OF THE PUBLIC PRINTING AND BINDING.

Statements No. 1 and No. 2 will show the *approximate* cost of the public printing and binding for each department of the government during the year ending on the 30th of September, 1869, as it appears on the books of this office. Statement No. 1, exhibiting the cost of the printing, binding, and lithographing and engraving for Congress, is given very much in detail, with the view of showing the cost, as nearly as is practicable, of each of the annual reports and other public documents which were printed in excess of the usual number, (1,550 copies, and fifty copies for the use of the Librarian of Congress, under a resolution of Congress,) and the manner in which they were authorized to be distributed. The *actual* disbursements of the office, as detailed in Statements Nos. 3, 4, 5, and 6, were as follows:

For the public printing .....	\$563,300 76
For paper for the public printing .....	399,798 51
For the public binding .....	385,219 41
For lithographing and engraving for Congress .....	145,370 51
For mapping for the Supreme Court of the United States .....	1,037 50
For salaries, &c., in the office of the Congressional Printer .....	12,514 00

By reference to Statement No. 1 it will be seen that a large number of the public documents ordered to be printed, either by law, by order of the Senate, or the House of Representatives, were for distribution by the executive departments and bureaus.

The amount realized during the year from the sale of paper, paper shavings, documents, &c., is \$22,669 79, which has been deposited in the treasury of the United States, as required by law.

The following table exhibits the disbursements of this office, under their respective headings, during the years ending September 30, 1863, 1864, 1865, 1866, 1867, 1868, and 1869, viz:

	Office of the Congressional Printer.	Public printing.	Paper for the public printing.	Lithographing and engraving.	Public binding.	Mapping for the Supreme Court United States.	Total.
1863.....	\$13,210 97	\$285,660 80	\$830,802 06	\$64,126 38	\$223,945 80	.....	\$1,417,746 01
1864.....	14,148 87	323,249 34	713,481 16	75,391 79	302,947 19	\$9,415 85	1,443,634 20
1865.....	14,869 54	439,856 14	1,285,959 51	96,907 04	387,228 09	2,279 00	2,227,099 32
1866.....	13,545 10	400,541 00	896,929 71	112,272 05	445,009 57	1,081 92	1,869,379 35
1867.....	13,769 43	452,998 22	635,106 09	108,624 75	386,203 98	2,515 92	1,599,218 39
1868.....	13,941 98	454,502 56	385,440 97	105,356 77	346,723 82	3,102 75	1,309,068 85
1869.....	16,596 20	559,218 56	399,798 51	145,370 51	385,219 41	1,037 50	1,507,240 69

## DISTRIBUTION OF THE PUBLIC DOCUMENTS.

Inquiry is frequently made as to the manner in which the usual or regular number (1,600) of executive and miscellaneous documents and reports of committees are distributed; as also the bills and joint resolutions, of which 750 copies are printed. This information is given in the following statement:

	Senate documents and reports.	House documents and reports.	Senate bills and joint resolutions.	House bills and joint resolutions.
Document room of the House.....	265	265	265	265
Office of the Clerk of the House.....	20	149	20	308
Sergeant-at-arms of the Senate.....	162	94	230	92
Office of the Secretary of the Senate.....	6	6	10	8
Folding room of the Senate.....	190		170	
State Department.....	5	5		10
Reserved for binding.....	902	1,031		
For Librarian of Congress.....	50	50	50	50
Total numbers printed.....	1,600	1,600	745	733

The reserved documents are bound in volumes of appropriate size, (in sheep and calf,) and are distributed as follows:

	Senate doc- uments.	House doc- uments.
Senate document room.....	106	106
House document room.....	263	361
Senate folding room.....	43	
Department of State.....	60	60
Department of the Interior.....	420	475
Library of Congress.....	50	50
Library of the House of Representatives.....	7	33
Library of the Court of Claims.....		2
Congressional Printer.....	1	
Total reserve.....	950	1,079

Such number of *extra* copies of the public documents are printed as are authorized by law, or may be directed by the special order of the Senate and House of Representatives; and these are distributed in the manner directed by law or by the house ordering them.

## PAPER FOR PRINTING.

The fourth section of the act of July 27, 1866, gives to the Joint Committee on Printing the exclusive control of contracting for paper for the public printing, and of "fixing a standard of paper for the different

descriptions of congressional and executive printing." Under the direction of the committee contracts were entered into for supplying any required quantities of the various kinds for the year ending on the 31st December, 1869, with the following persons:

CLASS 1.—*Fine uncalendered Printing Paper, 24 by 38 inches, 45 pounds per ream of 500 sheets:*

William H. Hoffman, of Baltimore, Md., 1,500 reams at \$6 25.05 per ream, and 1,500 reams at \$6 38.1 per ream.

Emanuel Shober, of Lancaster, Pa., 19,000 reams (more or less) at \$6 46 $\frac{7}{8}$  per ream.

CLASS 2.—*Fine calendered Printing Paper:*

William J. Bryan, of New York, N. Y., 9,000 reams (more or less) 24 by 38 inches, 53 pounds per ream of 500 sheets, at \$9 25.91 per ream; and 1,000 reams 22 by 34 inches, 44 pounds per ream of 500 sheets, at \$7 68.68 per ream.

CLASS 3.—*Superfine Printing Paper, hard-sized and supercalendered, 24 by 32 inches, 45 pounds per ream of 500 sheets:*

Richard Kingsland, of Franklin, N. J., 1,000 reams, at \$7 87 $\frac{1}{2}$  per ream.

CLASS 4.—*Map Paper:*

Richard Kingsland, of Franklin, N. J., 1,000 reams (more or less) of such sizes and weights as might be required, at 17 $\frac{1}{2}$  cents per pound.

CLASS 5.—*Writing Papers:*

H. M. Clarke & Co., of Boston, Mass., 21,300 reams (more or less) of such sizes and weights as might be required, at 21 $\frac{1}{4}$  cents per pound.

CLASS 6.—*Paper for post office blanks:*

William H. Hoffman, of Baltimore, Md., 3,100 reams (more or less) of several sizes and weights, at 16.23 cents per pound.

Statement No. 4, appended to this report, exhibits the exact quantity of each kind of paper purchased during the year ending on the 30th of September, 1869, and the cost per ream. The aggregate amount expended was \$399,798 51. There remained on hand at the end of the year papers of various kinds, as will be seen by reference to the same statement, amounting in value to \$136,389 25.

All the papers furnished under contract during the year 1869 were purchased at a little lower rate than they were in 1868—the average being about seven and one-half per cent. less than in the year previous.

I would respectfully suggest that the range of papers to meet the current wants of the Government Printing Office is too narrow, and that it be enlarged so as to avoid, if possible, the necessity of applying to the Secretary of the Interior for authority to purchase in the open market.

I have purchased in open market, under authority from the Secretary of the Interior of date September 2, 1869, of Jessup & Moore, 1,200 reams of fine calendered printing paper, 24 by 38 inches, 70 pounds to the ream, at \$12 21 $\frac{1}{2}$  per ream, no such papers being supplied under the existing contracts.

I regret to state that in some cases there has been considerable difficulty in keeping the quality of the contract papers up to the standard adopted by the Committee on Printing. This was especially the case

as to the contract of Emanuel Shober. The closest inspection, attended with much labor, has been exercised in respect to his papers, and they have proved so uniformly faulty that only 3,903 reams have been accepted from him. During last summer three hundred and twenty-one reams were culled from his deliveries and rejected.

In this connection I will suggest a remedy for the evils incident upon the present system of soliciting and accepting proposals for supplying paper to this office. An amendment to the existing law authorizing these contracts, which would confer upon the Joint Committee on Printing a wider discretion in accepting or rejecting bids, as is the case in other departments of the government, in my judgment would insure healthier competition, and a more favorable grade of contracts so far as quality and price are concerned.

#### LITHOGRAPHING AND ENGRAVING FOR CONGRESSIONAL DOCUMENTS.

The aggregate amount paid for this character of work was \$145,370 51, the details of which will be found in Statement No. 6. The illustrations accompanying the Annual Report of the Commissioner of Patents on Arts and Manufactures absorb the principal part of the appropriation for lithographing and engraving, those for the report for 1868 costing \$95,112. They are indispensable to a proper understanding of the report, and are very handsomely executed, at prices which are deemed reasonable for the character of the engravings. Proposals for this work are invited by public advertisement yearly, and the contract is awarded by the Joint Committee on Printing to the lowest bidder for the style of work advertised for.

#### MAPPING FOR THE SUPREME COURT OF THE UNITED STATES.

Some of the records of the Supreme Court of the United States which are ordered to be printed are accompanied by maps, plats, diagrams, &c., and a small number of copies in *fac-simile*, on tracing linen, are required for the use of the court. These, for the last year, cost the sum of \$1,037 50.

#### THE PUBLIC BINDING.

The amount expended on account of the public binding during the year ending on the 30th of September, 1869, was \$385,219 41, the details of which will be found in Statement No. 5. The value of the materials on hand at the end of the year was \$52,545 47, being \$1,157 98 in excess of the amount remaining over at the end of the preceding year.

#### CONDITION OF THE PUBLIC PRINTING AND BINDING.

Attached to Statement No. 1 will be found a list of the documents, &c., unfinished on the 30th of September, 1869, the end of the year for which the statistical portion of this report is made up.

## CUSTOM-HOUSE AND POST-OFFICE PRINTING.

In July last, under the law of Congress to that effect, the Commissioner of Customs transferred to the Government Printing Office all the printing and binding for all the custom-houses of the United States. This work had been previously done by private printing offices in the several localities where the customs were collected, and the transfer suddenly precipitated a large amount of business upon the resources of this office. For instance, during the first month after this change orders were received for 4,416 blank books, printed and plain, of all sizes from cap to imperial, and for 1,510,300 blanks of all the sizes in use for the customs service. During the next month thereafter the orders amounted to 1,526 blank books and 682,500 blanks, similar in character to those already alluded to. I refer to this matter more especially to show the rapid increase of business in this office.

The Post Office Department is also concentrating its entire printing and binding in this office, which, with the customs work, has already increased the item of blank-book binding alone at least one hundred per cent. over any former period.

## SPECIFICATION DEPARTMENT.

This department takes in the printing of the Patent Office specifications and claims, which, until November, 1868, was executed at private offices in this city, and paid for by the Patent Office. At the date above mentioned that printing was added to the business of this office, and the expense has since been borne by it. It now employs one assistant foreman, two proof-readers, two copy-holders, one maker-up, thirty-three compositors, and two laborers.

## BRANCH OFFICE AND STEREOTYPE FOUNDRY.

On or about the 11th of May last I received the following letter from the Secretary of the Treasury:

TREASURY DEPARTMENT, *May 11, 1869.*

SIR: Heretofore it has been the practice of the Treasury Department to have printing for the use of the department done within the Treasury building. By the existing law the departments are required to order all the printing necessary for the government service from the Government Printer. This course causes considerable inconvenience to the department, and, inasmuch as there are in the Treasury building several printing presses and other material for doing the work, it seems practicable to those who have had the most experience in business that you should take possession of these printing presses and materials and establish a branch office here, at which the work for the Treasury may be done.

Should this arrangement meet your views, I should be glad to have you take steps to carry it into effect.

Very respectfully,

GEORGE S. BOUTWELL,  
*Secretary.*

A. M. CLAPP, Esq.,

*Public Printer U. S., Washington, D. C.*

In compliance with the above request I immediately took possession of and organized in the basement of the Treasury building a branch office, comprising four power presses, a ruling and cutting machine, with a quantity of other printing material necessary to render the office complete and efficient. The employés of this branch office are one assistant foreman, one proof-reader, eight compositors, two pressmen, one apprentice, one paper-cutter and counter, four feeders of presses, one machine ruler, one ruling-machine feeder, and one laborer. This branch office, which was desired to provide for a class of confidential printing incident to the Treasury Department, has proved an efficient auxiliary in the public printing, and a matter of great convenience to the officials of the Treasury Department. It has, however, in no degree lessened the duties, cares, and responsibilities of the Congressional Printer.

The Government Printing Office had heretofore depended upon individual enterprise for its stereotyping, which had amounted to something over \$10,000 per annum, with a tendency to constant increase. Among the materials transferred from the Treasury Department to this office was a quantity of stereotype implements and machinery, together with an electrotype apparatus complete. After a careful examination of the matter, I came to the conclusion that both economy and convenience counseled the organization of a stereotype foundry in connection with and under the control of the Government Printing Office. Consequently, on the 15th of September, 1869, the material taken from the Treasury building, in connection with some additional, purchased to make the foundry complete, was placed in the apartment heretofore used for that purpose by an individual, and organized for business, with a superintendent and four other employés, who are competent to perform all the service required for this office. This arrangement promises well for the interests of the government, as the expense of the labor involved is only \$4,756 88 per year, with capacity to perform a larger amount of stereotyping than has heretofore been required for the use of the office. The saving to the government will be at least \$5,000 per annum. As soon as room can be obtained for its accommodation, the electrotype apparatus will also be brought into use.

#### EXTENSION OF THE BUILDING.

The building now occupied as the Government Printing Office has, under the increase of its business, become insufficient for its proper accommodation. Indeed, it is impossible now to crowd within its walls sufficient machinery and operatives to keep up with the demands made upon its resources, especially in the binding department. I would therefore recommend, and urge upon Congress, that an addition to the present building be made along North Capitol street, some one hundred feet by sixty feet deep, four stories high, and that it be constructed at the earliest practicable moment, and rendered fire-proof. The buildings now used for storing the large quantities of paper necessarily kept on

hand are insufficient, inconvenient, unsuitable, and unsafe, and should be discontinued in their use for that purpose. Indeed, this improvement is urgently demanded by every consideration of duty to the public interest, and will involve an expense not exceeding \$100,000. Again, I would remind Congress that it will be impossible, for any length of time beyond a few months, perhaps, to accommodate and prosecute the rapidly increasing business of this office within the building now used, if it remains of its present capacity.

I regard it a matter of duty to state that there are now some sixty thousand volumes of reserved work in the bindery of this office which could not be bound, owing to the fact that it has been impossible, with the present capacity of the building, to increase the binding force to an extent necessary to accomplish that and keep up with the pressing current work of the executive departments.

In conclusion, I desire most respectfully to reiterate the following suggestions and recommendations made by my predecessor in his last annual report, and which do not appear to have elicited the attention of Congress during its last session:

"I trust that I shall be excused for repeating what was stated in the last report from this office, and to express the hope that the subject may receive the consideration of Congress. The laws providing for extra copies of the bureau reports for the use of the bureaus do not, in many cases, accomplish the purposes for which they were intended—to save labor in this office and expense to the government. In some cases the number of copies authorized by law is not deemed sufficient for public purposes, and applications are frequently made to Congress for an increase of the number, which are always successful, when the entire work has to be reprinted. Moreover, requisitions are continually being made upon this office by the executive departments and bureaus for extra copies of reports either made or to be made to Congress, which, it appears to me, the law plainly prohibits me from printing. By a revision of the laws, so as to allow the chiefs of bureaus all the copies that may be necessary, and including the extra copies of all the annual reports authorized by law to be made to Congress, the work could be executed more promptly, at less cost, and with far greater satisfaction to all concerned."

Respectfully submitted:

A. M. CLAPP,  
*Congressional Printer.*

No. 1.—Statement showing the cost of the printing, binding, and lithographing and engraving, executed by order of the Senate and House of Representatives during the year ending on the 30th September, 1863.

[The cost of printing and binding, in their respective columns, is calculated at the prices paid immediately before the establishment of the Government Printing Office and Bookbindery, and must be understood only as the approximate cost under the present system; the actual cost of paper and of lithographing and engraving is given. Of the number of copies printed, those marked (\*) embrace the usual or regular number, (1,600 copies,) which are not included in the general distribution of the public documents.]
